SEAMAR SCANDINAVIA A/S - TURNKEY SOLUTIONS
YOUR PREFERRED PARTNER FOR THE MARINE AND OFFSHORE INDUSTRY

OUR SERVICES

Our core business activities are in providing the right solutions in the areas of:

Design & Engineering Services

SEAMAR Scandinavia offers a wide range of design and engineering services for the marine and offshore industries. We are dedicated to provide our customers with professional and custom tailored services and turnkey solutions always in compliance with industry standards and requirements. We have a versatile team of highly skilled engineers ready to assist you through every phase of your project – from inception to completion. From the early stages of design and development all the way to construction,

Electrical Installations

Seamar Scandinavia offers a wide range of engineering and electrical services for the marine and offshore industries. We have a versatile team of highly skilled engineers and electricians ready to assist you through every phase of your project – from inception to completion. From the early stages of design and development all the way to construction, Seamar Scandinavia offers high quality and cost-effective solutions, support, electrical and consultancy services.

Piping & Plumbing. Sprinkler & Fire Fighting

SEAMAR Scandinavia specializes in sprinkler and fire fighting systems providing custom tailored and turnkey solutions for the marine and offshore industries. We install all types of new systems, manage retrofittings and take care of repair, maintenance and service of existing systems regardless of the manufacture. Our services include design and engineering, commissioning and project management ensuring hands-on involvement through your entire project.

Heating, ventilation & Air Conditioning

SEAMAR Scandinavia specializes in the design and implementation of ventilation, heating and air conditioning systems. For several years, we have successfully designed, built and implemented HVAC technology customized to suit a diversity of surroundings and conditions controlling versatile factors such as temperature, purity and humidity. We provide a wide range of complete HVAC solutions for platforms and a diversity of ships such as navy, cruise and special vessels and we offer our services to ship yards and ship owners on site anywhere in the world.

Boiler & Industry Service

SEAMAR Scandinavia provide turnkey repair, maintenance, upgrade and conversion of all auxiliary and exhaust gas boilers. Our experienced boiler repair project crew work closely with our customers throughout the planning, preparation and execution of each job.

Manpower

SEAMAR Scandinavia is a strong provider of marine, offshore and onshore manpower solutions. We offer highly trained and experienced marine, offshore and onshore personnel such as pipefitters, welders, electricians and other craftsmen. Contact us for more information as well as any labor.

SEAMAR Scandinavia A/S was started by Claus Rask Boddum & Jesper Mariegaard, and the headoffice is located in Hirtshals, at the Northern west coast of Denmark, from where the majority of ferries between Denmark and Norway are sailing. Our performance largely depends on the effort of our highly skilled personnel, and we are always trying to attract new employees and retaining and motivating our existing employees.

Our continued ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees.

OUR SERVICE PHILOSOPHY

At Seamar, we are committed to providing our customers with responsive, accurate and personalized service.

When you work with us, you can expect the following:

- High quality solutions - within time and on budget.
- You will have a proactive partner. We actively and efficiently take care of any problem that may occur during your project always striving to offer our customers the best solutions.
- You can count on us 24/7/365 anywhere in the world.
- We are aware of the importance of completion deadlines and are committed to on-time deliveries.

WHO WE ARE ...

SEAMAR Scandinavia A/S offers a wide range of services for the marine and off-shore industries. We are dedicated to provide our customers with professional and custom tailored services and turnkey solutions always in compliance with industry standards and requirements.

To accomplish this, we work together with partners and companies that both enhance and expand our services. We have a versatile team of highly skilled personnel ready to assist you through every phase of your project. SEAMAR Scandinavia A/S offers high quality and cost-effective solutions, support and consultancy services.

OUR VISION STATEMENT

SEAMAR Scandinavia A/S aims to become internationally recognized as a company who delivers world-wide flexible solutions when needed, while also providing exceptional services in order to improve their clients' success and profitability. We are committed to providing the highest level of professionalism, service response, and quality workmanship.
